Yellowbank WMA General Information

Yellowbank WMA Information:

The Yellowbank Wildlife Management Area is located in northern Breckinridge County along state highway 259. This 6,000-acre property is owned by the KDFWR. The area consists of Ohio River bottomlands, upland-forested hills, ridges and the Yellowbank Creek drainage. The area can be accessed from several locations along Hwy. 259.

Directions:

From Brandenburg - Take Hwy. 79 three miles west and turn right onto Hwy. 144 west, and follow that approx. 12 miles to Hwy. 259. Turn west (right) onto Hwy. 259 and follow for 3.5 miles to an area information kiosk, or travel another 3 miles to the area information/check station located immediately on the west side of 259 in a brown house. Station is self-serve 24/7.

General Guidelines:

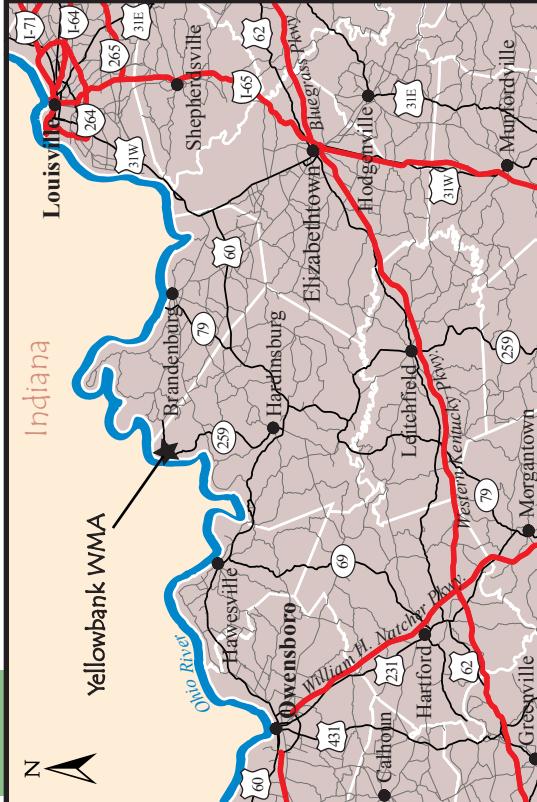

All specific information on area use for hunting, fishing, and other activities can be found in one of the many guides published by the Kentucky Department of Fish and Wildlife Resources or by calling 1-800-858-1549.

1. Vehicles must remain on maintained roads.
2. Parking is limited to areas provided near gates and graveled areas.
3. Do not block gates or access roads.
4. Access beyond gates is by foot travel only.
5. Primitive camping is permitted only in the designated campground. Open fires are allowed when camping, but must follow current fire laws that may be in effect.
6. Horseback riding is limited to the gravel and grass maintained roads within the WMA. As with all groups of 10 or more, a permit is needed 30 days prior to the event- in this case a planned ride. Contact the area manager to request a permit.
7. ATVs are not allowed on WMAs, except on designated ADA areas with proper permits. Not all WMAs have ADA areas.
8. Access to the WMA across private land is by landowner permission only.
9. Please respect private property. Area boundaries are marked by signs and yellow paint.
10. Hunters shall not discharge a firearm with 100 yards of a boat ramp, a residence, or occupied building. This applies whether or not the building is on the WMA.
11. Please refer to the current Kentucky Hunting and Trapping and Sport Fishing and Boating Guides for hunting, fishing and boating information.

WMA Management Objectives:

The management objectives on Yellowbank WMA are:

- 1) to manage wildlife areas toward the creation, enhancement, and sustainability of permanent wildlife habitats and populations;
- 2) to manage areas for the preservation and enhancement of public outdoor recreational opportunities;
- 3) to restore wildlife species to their natural habitats;
- 4) to provide opportunities for fish and wildlife education;
- 5) to provide demonstrations of sound wildlife management practices.
